## FEBRUARY BATTERY ACCESSORY SPECIALS

### **DPI Export Accusense Chargers**

Diversified Power International's (DPI) Heavy Duty Deep Cycle Battery Chargers provide an intelligent charge for your batteries. Most battery chargers are pre-programmed, resulting in an undercharge or overcharge of the battery. DPI chargers include a microprocessor that determines the appropriate charge requirement for each battery. As a result, DPI chargers deliver a 100% charge.

#### DPI Chargers feature:

- Continuous Amperage
- Low Voltage Jump Start
- Longer Battery Life
- Specific Algorithm Settings per Battery Type

Part #	Description	Price
CHADPI236C018E40EXC	EUROPEAN, CE STAMPED 36 VOLT TXT DC CONNECT	\$350.00
CHADPI248C017E22EX	SOUTH AMERICA/ISLANDS, 48 VOLT NABISON DC CONNECT	\$370.00

### **DPI Onboard 24 volt Charger**

The "smart" charging technology offers the advantages of less battery gassing, less water replacement, fewer battery maintenance hours, less battery heating, less output amperage required and less electric power consumption. As a result, DPI chargers also increase battery life, lower operating costs and operate more efficiently.

#### Onboard DPI Chargers Features:

- A nice sleek design, can be installed on many electric pallet jacks. Dimensions: 11"x7"x4.75"
- Perfect for industrial use, whether mounted or not!

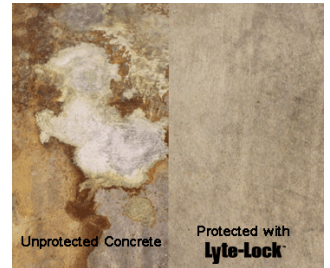

Part #	Description	Price
CHADPI24C018C03	24 VOLT ONBOARD DPI CHARGER 18 AMP	\$330.60

# Lyte-Lock - Acid Neutralizer

Lyte-Lock™ is a disposable battery cover used in conjunction with Deep Cycle Batteries. The product is designed to absorb the initial vented electrolyte, neutralize it, and reduce the resulting stains and corrosion on and around the batteries. The patented design is available in multiple configurations to fit most 6 volt, 8 volt, Golf batteries. Lyte-Lock™ is made from materials that are both acid and fire resistant. It also contains alkaline agents able to neutralize acids with up to 90% concentration. To install, remove vent caps properly as instructed by the battery manufacturer, snap into place around the venting holes, with the vented side of the cover facing up. Then replace the cap. Cover replacement should be performed during your normal battery maintenance routine suggested by the battery manufacturer.

## Advantages:

- Available for most 6 & 8, Vented Lead Acid Batteries
- Easy Installation - no need to remove brackets or cables
- Protect your flooring and your equipment
- Reduce Corrosion on Terminals
- Neutralize Battery Acid at the Source

Part #	Description	Price
MHALL248000600	LYTE-LOCK, 6V BATTERY COVER	\$7.16
MHALL248000800	LYTE-LOCK, 8V BATTERY COVER	\$7.44

# Neutralizing Acid Absorber™

## FUNCTION:

A safe and effective method to neutralize and absorb hazardous acid spills.

## REGULATORY CONSIDERATION:

Personnel safety risks and environmental hazards are minimized. Handles "Foreseeable Emergency" during "uncontrolled release of hazardous material" (OSHA 1910.1200). Satisfies spill neutralizer requirement in OSHA 1926.441 & 1910.178.

## ADDED ADVANTAGES:

"Safety Yellow" product labeling contains Use directions and abbreviated MSDS. Neutralizing Acid Absorber™ contains no hazardous ingredients. Floors and equipment left dry. Corrosion damage stopped. No stains.

## EFFECTIVELY NEUTRALIZES AND ABSORBS:

Sulfuric, Hydrochloric, Phosphoric, and Nitric Acids.  
Not recommended for Hydrofluoric Acid Spills.

## SIMPLE TO USE DIRECTIONS:

ONE pound of spilled acid is neutralized and absorbed by TWO pounds of NEUTRALIZING ACID ABSORBER™. in THREE minutes.

Part #	Description	Price
MHARG3020	NEUTRALIZING ACID ABSORBER	\$63.56

# State of Charge Meters

This state of charge meter is available in both 36V & 48V models. Easily installed, this meter is great for the driver to view the state of charge of their battery bank. A very nice tool to have on the road, or golf course!

**Features:**

- Analog meter
- Easily mounted for the “professional look”

Part #	Description	Price
MHASAF36VIM	ANALOG - 36V STATE OF CHARGE METER	\$16.00
MHASAF48VIM	ANALOG - 48V STATE OF CHARGE METER	\$16.00

# 36V Curtis Digital Meters

Curtis Instruments has long been the technological leader in the accurate measurement of state-of-charge of lead acid batteries for battery-powered industrial vehicles.

**Features:**

- Digital Meter
- Easily mounted for the “professional look”

**WHILE SUPPLIES LAST**

Part #	Description	Price
MHA906G36	DIGITAL - 36V STATE OF CHARGE METER	\$53.20

# 2 in 1 / Rear Flip - Seat Kits

Available for Club Car Precedent and E-Z-GO TXT Models. All Seats come Black Powder Coated, with Stainless Steel Hardware and Rear Top Struts.

**Features:**

- High Quality Cushion for long term use
- Easily mounted with Stainless Steel Hardware

Part #	Description	Price
MHASKSFDCC	C.C. PRECEDENT, 2 IN 1 REAR FLIP - TAN	\$478.00
MHASKSFDEZ	E-Z-GO TXT, 2 IN 1 REAR FLIP - TAN	\$478.00
